Introduction

Part 1

The ICANN Community and its Multistakeholder Model

Part 2

Questions

- ⊙ Why does your stakeholder group participate in ICANN? What do you hope to achieve from the multistakeholder model?
 - What are the ICANN community's expectations of its multistakeholder model?
 - What are the major stumbling blocks?
 - What is working? What is not?

- ⊙ Has the last 18 months shown the resilience of the multistakeholder model?
 - What challenges to that resilience are on the horizon?
 - Has the pandemic affected work prioritization and other specific aspects of the model?

- ⊙ How do we ensure the sustainability of the ICANN multistakeholder model? How can we overcome difficulties? What can we do better?
 - How can we achieve timely and effective responses to Domain Name System-related policy issues?
 - Can we demonstrate that the model continues to work?

ICANN within the Internet Governance Ecosystem

Part 3

Questions

- ⦿ How is ICANN's multistakeholder model perceived outside the ICANN community?
- ⦿ What role should the ICANN community, Board, and org play globally with respect to promoting the DNS and its evolution?
- ⦿ Where are the downsides and the opportunities of ICANN involvement within the Internet governance ecosystem?
 - Where are decisions made outside of ICANN that also affect global interoperability?
 - What adjustments are necessary if ICANN was to have a continuing role within the Internet governance ecosystem?
